

000-288

IBM

Developing Web Services with WebSphere Studio Application Developer V5.1

Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=000-288>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your 000-288 exam in first attempt, but also you can get a high score to acquire IBM certification.

If you use pass4sureofficial 000-288 Certification questions and answers, you will experience actual 000-288 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-288 exam. Every point from pass4sure 000-288 PDF, 000-288 review will help you take IBM 000-288 exam much easier and become IBM certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial IBM 000-288 course:

- * Up-to-Date IBM 000-288 questions taken from the real exam.
- * 100% correct IBM 000-288 answers you simply can't find in other 000-288 courses.
- * All of our tests are easy to download. Your file will be saved as a 000-288 PDF.
- * IBM 000-288 brain dump free content featuring the real 000-288 test questions.

IBM 000-288 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-288 exam training are an absolute favorite in the industry. You will pass IBM 000-288 certification test and career opportunities will be open for you.

Question: 1

According to Web Services for J2EE (JSR-109), a compliant Web Service can be implemented as:

- A. Entity EJB
- B. Stateless session EJB
- C. Service Endpoint
- D. Stateful session EJB

Answer: B, C

Question: 2

According to JAX-RPC, each PortType element in a WSDL document is mapped to which Java object?

- A. Service Endpoint Interface
- B. Service Interface
- C. Service Implementation Bean
- D. ServiceBindingStub

Answer: A

Question: 3

Which of the following statements regarding JAX-RPC Handlers is NOT true?

- A. Client-side Handlers run after the Stub/proxy has marshaled the message, but before container services and the transport binding occurs.
- B. Server-side Handlers run after container services have run including method level authorization, but before demarshalling and dispatching the SOAP message to the endpoint.
- C. Handlers can modify the SOAP message and operation name.
- D. Currently there is no standard means for Handlers to access the security identity associated with the request.

Answer: C

Question: 4

Which of the following statements concerning the mapping of XML constructs to Java as defined by JAX-RPC are correct?

- A. JAX-RPC defines mappings for XML complex types (xsd:complexType)
- B. JAX-RPC defines mappings for XML arrays and XML enumerations
- C. JAX-RPC defines mappings for xsd:anyType
- D. JAX-RPC does not define mappings for SOAP encoded types
- E. xsd:int will map to java.lang.Integer if the xsd:int element is marked as nillable in the base Schema

Answer: A, B, E

Question: 5

A developer implements an EJB Web Service conforming to Web Services for J2EE (JSR-109). Which of the following artifacts need to be packaged with the J2EE EAR for the Web Service?

- A. Service Endpoint Interface
- B. Soap Binding Stub
- C. Java to WSDL mapping XML File

- D. Service Locator class
- E. WSDL file

Answer: A, C, E

Question: 6

Which of the following are TRUE of JAX-RPC clients?

- A. JAX-RPC clients can use a synchronous request-response invocation mode
- B. JAX-RPC clients can use a one-way RPC invocation mode in which they invoke a remote operation and return immediately without blocking.
- C. JAX-RPC clients must invoke a Web Service using a static stub generated at compile time
- D. JAX-RPC client code is independent of the messaging and transport protocol.
- E. The client stubs (that are generated by tooling) must be portable across vendors.

Answer: A, B, D

Question: 7

To access the Web Service User-Defined Function wizard, a developer would begin by clicking "File -> New -> Other" to invoke the New dialog. Which category on the detail (left) pane would she click on to display Web Service User-Defined Function in the detail pane?

- A. Web Services
- B. Data
- C. J2EE
- D. Web
- E. UDF

Answer: B

Question: 8

Which of the following are TRUE with regard to Web Service clients?

- A. A single Stub can be used to access all ports defined in a WSDL file.
- B. Dynamic Proxies require code generation of Stubs.
- C. Java applications can invoke Web Services using Stubs or Dynamic Proxies.
- D. Dynamic Invocation Interfaces de-couple transport bindings and protocols from the Web Service client implementations.
- E. ServiceLocators de-couple Web Service clients from Web Service endpoints.

Answer: C, E

Question: 9

A J2EE web application needs to access a Web Service for its data processing. It has been decided to use client proxies to access the Web Service. While the operation, parts and service endpoint are known at the time of application development the port and the bindings are known only during runtime. Which of the following type of client proxies would BEST suit this application?

- A. Dynamic Invocation Interface
- B. Dynamic Proxies
- C. Stubs
- D. Service Endpoint Interface
- E. Handlers

Answer: B

Question: 10

Please refer to the exhibit.

Each member company of the Flange Consortium registers in a public UDDI registry. A consortium rule requires each company to present its catalog as a Web Service that implements a common UDDI technical model named "FlangeCat." The technical model refers to an online WSDL file. The WSDL file describes a Web Service that includes a getPrice(FlangeType) operation. The Flange consortium is developing a thin client that presents a pick list of prices for any chosen kind of flange. Assume that the client uses a proxy generated from the FlangeCat technical model WSDL reference.

The client uses the UDDI registry and the Web Service proxy to discover and add flange services to a service list. Assume that the list is implemented as a vector of service keys. Choose the BEST approach to accessing vendor name, description, and contacts when a user clicks an entry in the list. Use the

- A. service key of the clicked entry to obtain the business key from the registry, retrieve the business entry using the business key; display the business name, description and contacts.
- B. service key of the clicked entry to obtain the service details; extract the business key from the service details, retrieve the business entry using the business key; display the business name, description and contacts
- C. business key of the clicked entry to retrieve the business entry using the service key; display the business name, description and contacts.
- D. business key of the clicked entry to retrieve the service entry using the service key; display the business name, description and contacts

Answer: B

Question: 11

A Web Service dynamic client could find information in a UDDI registry by using the UDDI4J API with what kind of object?

- A. com.ibm.uddi.client.Proxy
- B. com.ibm.uddi.client.ConnectionFactory
- C. com.ibm.uddi.client.Connection
- D. com.ibm.uddi.client.UDDIProxy

Answer: D

Question: 12

Which of the following approaches for development of Web Services using WebSphere Studio Application Developer V5.1 are top-down?

- A. Web Service from JavaBean

Pass4SureOfficial.com Lifetime Membership Features;

- Pass4SureOfficial Lifetime Membership Package includes over **2500** Exams.
- **All** exams Questions and Answers are included in package.
- **All** Audio Guides are included **free** in package.
- **All** Study Guides are included **free** in package.
- **Lifetime** login access.
- Unlimited download, no account expiry, no hidden charges, just one time \$99 payment.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with explanations (If applicable).
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
