IBM

IBM Tivoli Netcool Impact V4.0 Implementation

Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=000-938>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your 000-938 exam in first attempt, but also you can get a high score to acquire IBM certification.

If you use pass4sureofficial 000-938 Certification questions and answers, you will experience actual 000-938 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-938 exam. Every point from pass4sure 000-938 PDF, 000-938 review will help you take IBM 000-938 exam much easier and become IBM certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial IBM 000-938 course:

- * Up-to-Date IBM 000-938 questions taken from the real exam.
- * 100% correct IBM 000-938 answers you simply can't find in other 000-938 courses.
- * All of our tests are easy to download. Your file will be saved as a 000-938 PDF.
- * IBM 000-938 brain dump free content featuring the real 000-938 test questions.

IBM 000-938 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-938 exam training are an absolute favorite in the industry. You will pass IBM 000-938 certification test and career opportunities will be open for you.

Question: 1

Which statement is true about IBM Tivoli Netcool Impact?

- A. A data source needs to be defined for any policy to run.
- B. A Jabber server should be set up in order to run IBM Tivoli Netcool Impact policies.
- C. An e-mail server should be set up in order to run IBM Tivoli Netcool Impact policies.
- D. An ObjectServer data source needs to be defined for policies to update ObjectServer events directly.

Answer: D

Question: 2

For what is the nclshutdown script used?

- A. To shut down the GUI server, impact, and JRExec server processes
- B. To stop event processing and policy execution in the IBM Tivoli Netcool Impact server
- C. To shut down the IBM Tivoli Netcool Impact server independently from the application server
- D. To gracefully shut down the PostgreSQL database and the IBM Tivoli Netcool Impact server

Answer: C

Question: 3

Click the Exhibit button.

Which IBM Tivoli Netcool Impact function(s) is used for step 3 in the policy, based on this pseudo-code?

Exhibit - Sample Pseudo-Code of an Impact Policy

1. Get the Customer record from Customer database using Customer column from the event
2. Populate the SLA column in the event from the Customer record
3. Interrogate the Reporter database to count the number of Major and Critical events for this customer during the last 7 days
4. If there are more than 3 events, set the severity of the event to Major
5. If there are more than 5 events, set the severity of the event to Critical
6. Return the event to the ObjectServer with the updated columns.

- A. GetByKey
- B. GetByRlter
- C. GetByFilter with CountOnly = TRUE
- D. GetByFilter then the Length function to count the number of items returned in the array

Answer: D

Question: 4

A customer has a requirement that IBM Tivoli Netcool Impact should only act upon updated events, and never act upon new events. How would IBM Tivoli Netcool Impact be configured to meet this requirement?

- A. Add a field to the ObjectServer that operators can manually update to trigger policies
- B. Include a function in every policy that exits immediately if the IDUC value of the event is U

- C. Add time stamp filtering to the Event Reader, comparing the StateChange value to FirstOccurrence
- D. Select the Get updated events checkbox in the Event Mapping tab of the Event Reader Configuration window

Answer: C

Question: 5

A customer has a policy that is using the JRExec action to call an external script. The script requires four parameters to function correctly. What can be done to ensure the policy does not call the JRExec action if there are fewer than four parameters?

- A. Define the number of parameters in the JRExec configuration file
- B. Configure the external script to exit if it receives fewer than four parameters
- C. Configure the JRExec action to exit if it receives fewer than four parameters
- D. Configure the policy with an exception handler to check for the number of parameters

Answer: D

Question: 6

Click the Exhibit button.

Which pseudo-code correctly matches the logic shown in the flowchart?

- A. Read the Customer record from the Oracle database using the Customer column in the event. If there is no matching record, set the event to Flash, set the Location column to Unknown and return the event to the ObjectServer. If the Customer record is found, set the Location from the Customer record, set the Region column based on the Location and return the event to the ObjectServer.
- B. Read the Customer record from the Oracle database using the Customer column in the event. If there is no matching record, set the event to Flash, set the Location column to Unknown, set the Region column to Unknown and return the event to the ObjectServer. If the Customer record is found, set the Location from the Customer record, set the Region column based on the Location and return the event to the ObjectServer.
- C. Read the Customer record from the Oracle database using the Customer column in the event. If there is no matching record, set the event to Flash, set the Location column to Unknown and return the event to the ObjectServer. If the Customer record is found, set the Location from the Customer record and return the event to the ObjectServer.
- D. Read the Customer record from the Oracle database using the Customer column in the event. If there is no matching record, set the Location column to Unknown and return the event to the ObjectServer. If the Customer record is found, set the Location from the Customer record, set the Region column based on the Location and return the event to the ObjectServer.

Answer: Pending

Question: 7

A customer has a policy that is performing SNMP gets on device interfaces to enrich events with the interface name and interface description. When an SNMP query fails, it causes errors. The customer wants to be notified of SNMP failures. How can the customer's requirement be met?

- A. Configure the policy to monitor the Failed Events data type
- B. Do nothing; failures automatically create new events in IBM Tivoli Netcool OMNibus
- C. Configure the policy with an exception handler and create a new event in IBM Tivoli Netcool OMNibus
- D. Configure the SNMP data source adapter to send events to IBM Tivoli Netcool OMNibus when a query fails

Answer: C

Question: 8

An IBM Tivoli Netcool Impact policy is being tested by executing it with the ncijrigger script. What is the correct syntax for running a policy named Test_Policy1 on an IBM Tivoli Netcool Impact server named NCI, as user admin with a password of netcool, and passing runtime parameters for Node and AlertKey ObjectServer fields?

- A. ncijrigger NCI admin/netcool Test_Policy1 @Node "Device1" @AlertKey "1.3.1"
- B. ncijrigger NCI -U admin -P netcool Test_Policy1 \$Node "Device1" \$AlertKey "1.3.1"
- C. ncijrigger NCI -username admin -password netcool -policy Test_Policy1 -Node "Device1" -AlertKey "1.3.1"
- D. ncijrigger NCI -user admin -passwd netcool -policyname Test_Policy1 -var1 "Node='Device1'" -var2 "AlertKey='1.3.r'"

Answer: A

Question: 9

What happens when an event is created in the ObjectServer from IBM Tivoli Netcool Impact without specifying LastOccurrence?

- A. Nothing happens.

Pass4SureOfficial.com Lifetime Membership Features;

- Pass4SureOfficial Lifetime Membership Package includes over **2500** Exams.
- **All** exams Questions and Answers are included in package.
- **All** Audio Guides are included **free** in package.
- **All** Study Guides are included **free** in package.
- **Lifetime** login access.
- Unlimited download, no account expiry, no hidden charges, just one time \$99 payment.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with explanations (If applicable).
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
