

# 000-931

## IBM

### *IBM Tivoli Netcool/Proviso V4.4.1 Implementation*

Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=000-931>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your 000-931 exam in first attempt, but also you can get a high score to acquire IBM certification.

If you use pass4sureofficial 000-931 Certification questions and answers, you will experience actual 000-931 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-931 exam. Every point from pass4sure 000-931 PDF, 000-931 review will help you take IBM 000-931 exam much easier and become IBM certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial IBM 000-931 course:

- \* Up-to-Date IBM 000-931 questions taken from the real exam.
- \* 100% correct IBM 000-931 answers you simply can't find in other 000-931 courses.
- \* All of our tests are easy to download. Your file will be saved as a 000-931 PDF.
- \* IBM 000-931 brain dump free content featuring the real 000-931 test questions.

IBM 000-931 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-931 exam training are an absolute favorite in the industry. You will pass IBM 000-931 certification test and career opportunities will be open for you.

**Question: 1**

A customer is consolidating various performance-reporting solutions to have reports accessible through a single Web portal. The customer wants to export the list of resources of interest managed by Proviso and build a URL to provide direct access to Proviso reports.

What is the most efficient way to fulfill the customer's requirements?

- A. It is not possible to provide a direct link to Proviso reports because SilverStream authentication policies.
- B. A DataView API extract can be used to put the list of subelement IDs in a group, and the ID of predetermined reporters can be used to form an HTTP GET URL. The connections will have to be managed by the external application.
- C. A resmgr export could be used to provide the subelement group ID and subelement ID. A second resmgr export could be used to export the reporter IDs deployed for that subelement to create an HTTP GET URL. The connections will have to be stored in SilverStream.
- D. A resmgr export could be used to provide the subelement group ID and subelement ID. A second resmgr export could be used to export the reporter IDs deployed for that subelement to create an HTTP GET URL. The connections will have to be managed by the external application.

**Answer: B**

**Question: 2**

Which of the following choices determines which Application Packs are needed?

- A. Group density of the custom grouping structure
- B. Number of aggregation sets and their associated timezones
- C. Set of metrics and technologies that the customer needs to collect
- D. Number of SNMP and Bulk DataLoads and their associated subchannels

**Answer: C**

**Question: 3**

Which two considerations should be taken into account when planning a geographical remote disaster recovery site for Proviso? (Choose two.)

- A. Allocate adequate network bandwidth to copy data between sites.
- B. Evaluate the volume of data and frequency to be replicated between the remote sites.
- C. Determine the number of Channel Management processes that will be required for both sites.
- D. Select metrics to be collected, frequency of collection and method of collection (bulk or SNMP).
- E. Ensure that the SNMP Collector is running on port 3002 and the WatchDog is running on port 3003.

**Answer: A, B**

**Question: 4**

Which three considerations should be taken into account when determining the placement of a DataLoad server? (Choose three.)

- A. Location of Oracle database
- B. Location of Network Devices
- C. Location of Performance data
- D. Location of the DataChannels
- E. Location of the DataMart server

F. Configuration and location of firewalls

**Answer: B, C, F**

**Question: 5**

Which tool can be used to set the port used for communication between Proviso and a network element?

- A. Inventory tool
- B. Formula Editor
- C. Resource Editor
- D. SNMP configuration tool

**Answer: D**

**Question: 6**

Which cluster products are supported for use with Proviso?

- A. Heartbeat
- B. Veritas Cluster Server
- C. Microsoft Cluster Server
- D. System Automation for Multiplatform

**Answer: B**

**Question: 7**

Which of the following statements is true regarding Proviso sizing?

- A. Group density is affected only by reporting tree.
- B. Group density is affected only by collection tree.
- C. Group density is affected both by collection and reporting group trees.
- D. Group density is not affected by collection or reporting group trees, but by discovery groups.

**Answer: A**

**Question: 8**

What does the command, pvmdmgr start -docollections no -doregistration no, do?

- A. Starts the SNMP collector in Test mode
- B. Starts the SNMP collector in Safe mode
- C. Starts the SNMP collector in Audit mode
- D. Starts the SNMP collector without polling and database registration

**Answer: D**

**Question: 9**

Given that the UBA is a standard DataChannel component, which key aspect differentiates one UBA from another?

- A. Design files
- B. Reports deployed into the portal
- C. Version of the UBA used by each Application Pack
- D. Collection requests included in each Application Pack

**Answer: A**

**Question: 10**

Proviso has been installed within a high availability environment. Which DataMart configuration file would need to be configured for high availability discovery?

- A. dc.cfg
- B. inventory.res
- C. dbspaceV3.conf
- D. provisoinfo.conf

**Answer: B**

**Question: 11**

What is the operational consequence of not running the SilverStream Cache Manager in a DataView cluster?

- A. There is no significant impact on the running Proviso system.
- B. SilverStream must download all metric data necessary to produce a performance report each time it is requested.
- C. The performance of the LDR is decreased because all data must be loaded directly into the database with no cache.
- D. All instances of DataView must be restarted when new users or content are created so that they can download changed users and content.

**Answer: D**

**Question: 12**

What are two causes of the error message Insufficient Memory occurring during database creation? (Choose two.)

- A. The application has been installed by an incorrect user.
- B. The shared memory segments have not been specified correctly.
- C. There is insufficient RAM installed on the server to create the database.
- D. The Oracle application has not been installed or preconfigured for Proviso.
- E. A system reboot has not been restarted since setting the shared memory parameters for Oracle.

**Answer: B, E**

**Question: 13**

In the dbMgr tool, which option will give a detailed version list of all Proviso components?

- A. dbMgr versionSupportLevelDump
- B. dbMgr versionRptByProvisoHost V
- C. dbMgr versionRptProvisoSummary V
- D. dbMgr versionRptByProvisoApp V TOOLS

**Answer: A**

**Question: 14**

Which DataChannel component probes the SNMP collectors for state information?

- A. CME
- B. LDR
- C. HAM

## Pass4SureOfficial.com Lifetime Membership Features;

- Pass4SureOfficial Lifetime Membership Package includes over **2500** Exams.
- **All** exams Questions and Answers are included in package.
- **All** Audio Guides are included **free** in package.
- **All** Study Guides are included **free** in package.
