Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=EE0-065>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your EE0-065 exam in first attempt, but also you can get a high score to acquire ExamExpress certification.

If you use pass4sureofficial EE0-065 Certification questions and answers, you will experience actual EE0-065 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our ExamExpress exam prep covers over 95% of the questions and answers that may be appeared in your EE0-065 exam. Every point from pass4sure EE0-065 PDF, EE0-065 review will help you take ExamExpress EE0-065 exam much easier and become ExamExpress certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial ExamExpress EE0-065 course:

- * Up-to-Date ExamExpress EE0-065 questions taken from the real exam.
- * 100% correct ExamExpress EE0-065 answers you simply can't find in other EE0-065 courses.
- * All of our tests are easy to download. Your file will be saved as a EE0-065 PDF.
- * ExamExpress EE0-065 brain dump free content featuring the real EE0-065 test questions.

ExamExpress EE0-065 certification exam is of core importance both in your Professional life and ExamExpress certification path. With ExamExpress certification you can get a good job easily in the market and get on your path for success. Professionals who passed ExamExpress EE0-065 exam training are an absolute favorite in the industry. You will pass ExamExpress EE0-065 certification test and career opportunities will be open for you.

QUESTION 1

Terry, Francis, and Gene are Web site developers. Terry is a graphic artist, Francis is a copy editor, and Gene is a Web application developer specializing in JavaScript, jsp, asp, and ColdFusion. Based on the above scenario, which one of the following situations dictates the need for more than one workarea?

- A. Terry and Francis need to collaborate often.
- B. Francis, Gene, and Terry review each other's work.
- C. Terry and Gene both need to publish specific files at the same time.
- D. Francis and Gene both need to edit index.html at the same time.
- E. Francis and Terry both need to submit specific files at the same time.

Answer: D

QUESTION 2

Which one of the following encryption methods is supported by OpenDeploy WITHOUT installing any additional security programs?

- A. SSH tunneling
- B. OpenDeploy does not support encryption
- C. Challenge-response 60-bit symmetric encryption
- D. X509v3 SSL 168-bit asymmetric encryption
- E. 1024-bit PGP encryption

Answer: D

QUESTION 3

An existing installation of OpenDeploy has been working properly for six months but now begins to fail. After some investigation, you discover that nothing has changed on either the TeamSite server or the target server at a remote office location. The TeamSite Server and target server communicate through a secure tunnel on the Internet; however, you find that the Network Infrastructure team recently replaced all Internet connectivity networking hardware.

What is the cause of the failure described above?

- A. The OpenDeploy encryption key file is no longer valid because the network infrastructure has changed.
- B. The TeamSite server is in need of an upgrade.
- C. The new firewall did not get set to allow traffic on the port that OpenDeploy is using.
- D. The TCP/IP address of the target server has changed.
- E. The new ISP is not OpenDeploy enabled.

Answer: C

QUESTION 4

You need to remove a link from a ContentCenter Professional menu; however, you don't know its ID. What should you do?

- A. Locate the link in the deployed webapp.
- B. Locate the link in the User Interface Customization Guide.
- C. Hover over the link in the UI to see its tooltip.
- D. Nothing! You may not remove links from ccpro menus.
- E. Locate the link in a ref*.xml file.

Answer: E

QUESTION 5

You have a UNIX server running TeamSite. You try to create a Workarea in your branch, but the operation fails. You are logged into ContentCenter as a Master and you have all the necessary permissions. Which one of the following may have caused the problem described above?

- A. The /tmp directory was full.
- B. The iwproxy server process was not running.
- C. The server ran out of inodes.
- D. TeamSite server process was not running.
- E. The /var/spool directory was full.

Answer: C

QUESTION 6

A TeamSite administrator of a Windows TeamSite server manually sets permissions on a file so that Everyone has read control. The file is submitted to a TeamSite staging area. The next day, permissions on the file have changed, but the administrator did not explicitly reset permissions on the file. Which one of the following choices correctly explains the permissions change in the above scenario?

- A. The local group TeamSite Web Preview does not exist on the TeamSite server.
- B. TeamSite changes the permissions of a file each time the file is accessed.
- C. Windows changes the permissions of a file each time the file is accessed.
- D. An existing submit.cfg file changed the permissions on the file before the file was submitted.
- E. An existing autoprivatize.cfg file changed the permissions on the file before the file was submitted.

Answer: D

QUESTION 7

For a default TeamSite installation on Windows to virtualize properly, which one of the

EE0-065

following statements about local groups is true?

- A. A local TeamSite group account must be manually created after installation.
- B. Local groups must be created for grouptasks in TeamSite workflow.
- C. No action needs to be taken concerning local groups.
- D. Local groups must be created for each TeamSite role and user accounts added to the local group accounts.
- E. Local groups must be created according to the configuration in submit.cfg.

Answer: C

QUESTION 8

Which one of the following shows the relationship between a workflow template and the corresponding workflow job?

- A. The Perl code embedded in the workflow template is evaluated and the result is used by the workflow engine to create the workflow job.
- B. When a workflow template is deleted, all currently active jobs that have been started from that template are immediately destroyed.
- C. Workflow template and workflow job are different names for the same thing.
- D. A workflow job is continually updated when the workflow engine cycles between running and suspending the embedded Perl code.
- E. A workflow template is the pattern from which workflow programmers create new jobs using "iwwfjob."

Answer: A

QUESTION 9

Which one of the following topics should you NOT expect to find in the knowledge base section of <http://support.interwoven.com>?

- A. Copies of product literature in portable document format
- B. Useful background information on integrating TeamSite with iPlanet application server
- C. Recommendations for configuring block size and inodes for the TeamSite content store
- D. Steps for creating a DCR without using the TeamSite FormsPublisher interface
- E. Workflow development suggestions and samples

Answer: A

QUESTION 10

```
<!ELEMENT option EMPTY>
<!ATTLIST option
selected (t | f) "f"
value CDATA #IMPLIED
```
