

000-990

IBM

WebSphere Bus Modeler Adv V6.0, Bus Anl+Design

Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=000-990>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your 000-990 exam in first attempt, but also you can get a high score to acquire IBM certification.

If you use pass4sureofficial 000-990 Certification questions and answers, you will experience actual 000-990 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-990 exam. Every point from pass4sure 000-990 PDF, 000-990 review will help you take IBM 000-990 exam much easier and become IBM certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial IBM 000-990 course:

- * Up-to-Date IBM 000-990 questions taken from the real exam.*
- * 100% correct IBM 000-990 answers you simply can't find in other 000-990 courses.*
- * All of our tests are easy to download. Your file will be saved as a 000-990 PDF.*
- * IBM 000-990 brain dump free content featuring the real 000-990 test questions.*

IBM 000-990 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-990 exam training are an absolute favorite in the industry. You will pass IBM 000-990 certification test and career opportunities will be open for you.

Question: 1
View the Exhibit.

The screenshot displays a simulation software interface. At the top, there's a process flow diagram for 'Process 1'. It starts with a 'Business Item 1' entering a 'Task'. After the task, it reaches a 'Decision' diamond with two paths: '50.0% Yes' leading to 'Task:2' and '50.0% No' leading to 'Task:3'. Both 'Task:2' and 'Task:3' lead to 'Task:4'. 'Task:4' then leads to the end of the process. Below the diagram is a 'Simulation Control Panel' and an 'Errors' section. The main area shows a message: 'Simulation finished but not all tasks were completed successfully. (details)'. Below this is a table with columns: Processes, Tasks, Connections, Total instances, Active instances, Average revenue, Average cost, Average profit, and Revenue stanc. The table shows that 'Task' and 'Task:3' have 1 total instance each, while 'Task:2' and 'Task:4' have 0. A 'Simulation Failure Details' dialog box is open, stating: 'The following tasks or processes failed to execute successfully during the previous simulation'. It lists 'Process 1' with the failure description 'The simulation ended before this element completed processing' at 'April 10, 2006 10:27:32 PM PDT'.

Processes	Tasks	Connections	Total instances	Active instances	Average revenue	Average cost	Average profit	Revenue stanc
Task			1	0	0 USD	0 USD	0 USD	0.0
Task:2								0.0
Task:3			1	0	0 USD	0 USD	0 USD	0.0
Task:4								0.0

The exhibit shows the task list for a simulation that was run with 10 tokens. Notice the note “Simulation finished but all tasks were not completed.” The dialogue below appears when the details link is selected. Only one token passed through the first task and then Task:3. Then the simulation apparently halted and then timed out. The BEST solution to this problem would be which of the following?

- A - Resolve inconsistencies in the Data Model.
- B - Add a merge to join the paths through Task2 and Task:3.
- C - Modify the input criteria of Task:4 to use OR instead of AND.
- D - Apply user input that the simulation is waiting for.

Answer: C

Question: 2

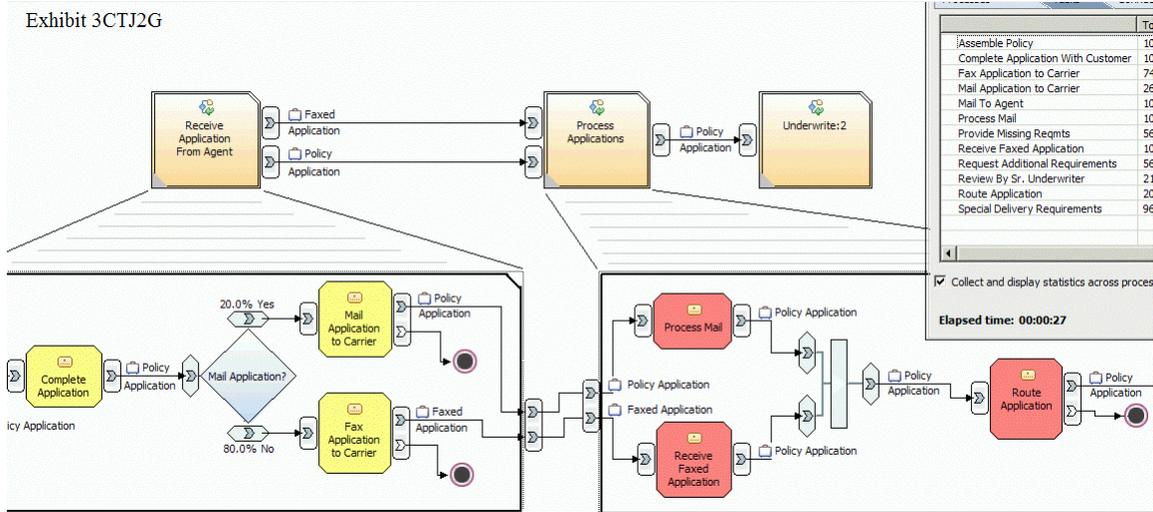

Which of the following reports would give the BEST comprehensive evaluation for the cost of a process?

- A - Static Analysis Resource Cost
- B - Static Analysis Activity Cost and Duration
- C - Dynamic Analysis Process Instance Cost
- D - Dynamic Analysis Process Cost

Answer: D

Question: 3

View the Exhibit.

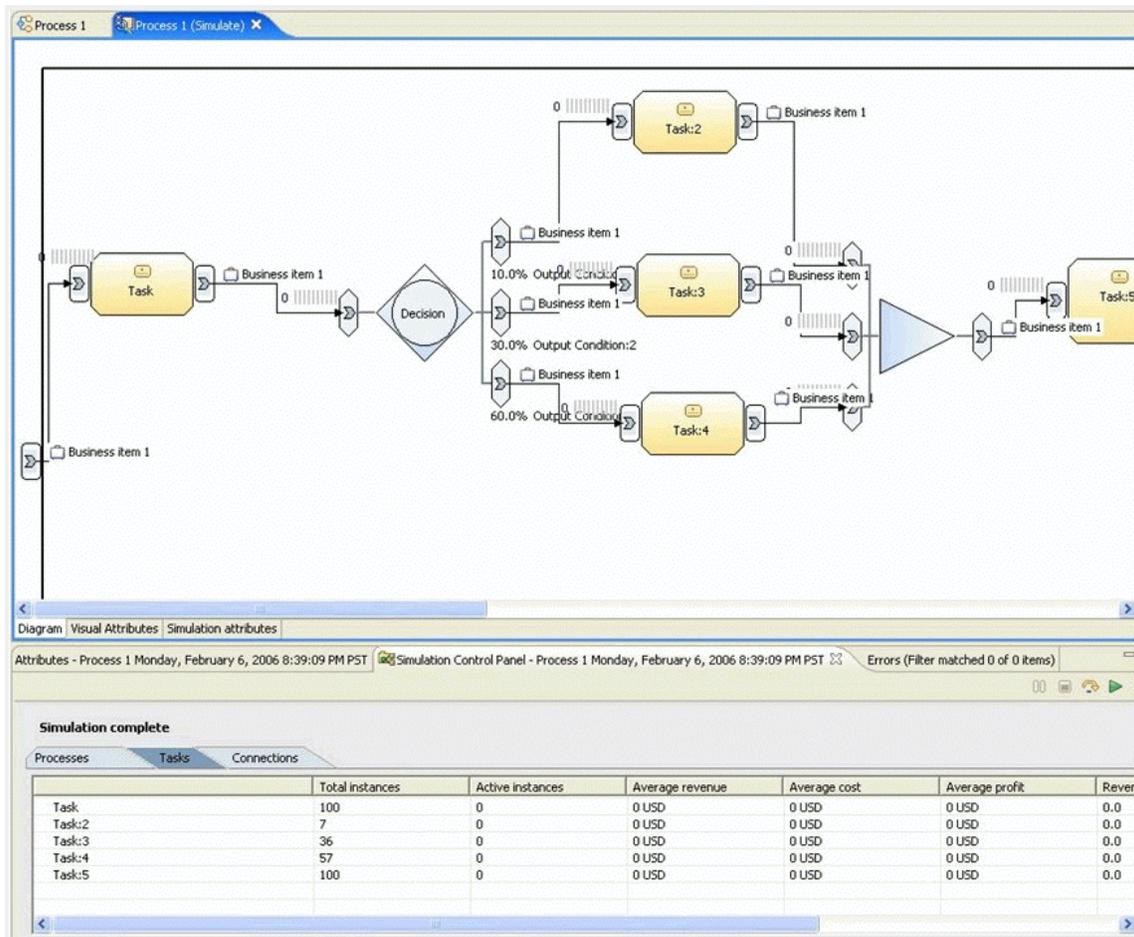

A simulation has been set to run 100 tokens. When reviewing results, it appears that the simulation has counted 200 tokens for the task "Route Application." The doubling of the tokens was caused by "AND" statements (rather than an "OR" statement) for the output of the Process "Receive Application from Agent" and the input for "Process Applications." Once this has been corrected, what else must be changed for the process to run correctly?

- A - Set the two Stop Nodes in "Receive Application from Agent" to End Nodes.
- B - Set the "Method of Selecting an output Path" to "Based on an expression" in the General Tab of the simulation snapshot attributes.
- C - Set the input logic for the task "Route Application" to "OR" rather than "AND"
- D - Replace the Join with a Merge object.

Answer: D

Question: 4

View the Exhibit.

A simulation is run on the process shown in the diagram. The results of 100 tokens being passed in the simulation is also shown. Which of the following is true based upon the simulation results?

- A - The simulation engine did not successfully complete processing of all 100 tokens.
- B - The decision is being made inclusively.
- C - The simulation engine is not distributing the tokens as the percentages on the branches of the decision indicate
- D - Task 2,3,4 are not executing simultaneously.

Answer: D

Question: 5

Which of the following is the BEST approach for comparing the performance of different versions of the same process model?

- A - Use the change management repository, and run a compare to determine the changes from the older to the newer.
- B - Use the change management repository, and activate the comparison analysis.
- C - Use the simulation results from the two versions of the same process model, and run the comparative analysis from static analysis.
- D - Use the simulation results from the two versions, and activate the comparison analysis from dynamic analysis.

Answer: D

Pass4SureOfficial.com Lifetime Membership Features;

- Pass4SureOfficial Lifetime Membership Package includes over **2500** Exams.
- **All** exams Questions and Answers are included in package.
- **All** Audio Guides are included **free** in package.
- **All** Study Guides are included **free** in package.
- **Lifetime** login access.
- Unlimited download, no account expiry, no hidden charges, just one time \$99 payment.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with explanations (If applicable).
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
