XML 1.1 and Related Technologies

Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=000-142>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your 000-142 exam in first attempt, but also you can get a high score to acquire IBM certification.

If you use pass4sureofficial 000-142 Certification questions and answers, you will experience actual 000-142 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-142 exam. Every point from pass4sure 000-142 PDF, 000-142 review will help you take IBM 000-142 exam much easier and become IBM certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial IBM 000-142 course:

- * Up-to-Date IBM 000-142 questions taken from the real exam.
- * 100% correct IBM 000-142 answers you simply can't find in other 000-142 courses.
- * All of our tests are easy to download. Your file will be saved as a 000-142 PDF.
- * IBM 000-142 brain dump free content featuring the real 000-142 test questions.

IBM 000-142 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-142 exam training are an absolute favorite in the industry. You will pass IBM 000-142 certification test and career opportunities will be open for you.

Question: 1

XML data is stored and retrieved within a relational database for a data-centric application by means of mapping XML schema elements to database tables. There are concerns that the queries and updates to this database are slow due to the number of joins required in the SQL. What is the best option for improving the storage and retrieval of this XML data?

- A - Transform XML documents into canonical form before persisting.
- B - Modify the current XML schema by converting elements to attributes where possible and re-map to tables in order to reduce the number of tables and therefore the number of joins required.
- C - Store the XML data as CLOBs without decomposing them into relational tables and provide an 'id' based lookup.
- D - Modify the current XML schema by merging all of the XML documents into a main XML document and query using XPath.

Answer: B, D

Question: 2

A developer wishes to make an XSLT template more robust by checking a parameter passed to it for errors and boundary conditions. The template accepts a parameter of type number. What condition will NOT have to be checked?

- A - number greater than allowed range
- B - value of 0
- C - type of the parameter value
- D - Integer numbers

Answer: C

Question: 3

Calculating sub-totals from an XML document using XSL transformation requires special considerations. Which of the following options is the best solution to solve this problem?

- A - Create a fragment variable containing the values to total and then use the node-set() XSLT extension and the XPath sum() function to calculate the value.
- B - Create a special XSLT variable that contains the results of an XPath query that performs a "Sum()" of the values to be totaled.
- C - Use XSLT recursion to define a variable value that calculates the "value-of" the elements to be sub-totaled.
- D - Use XSLTC to precompile a custom Java translet that will extract the values to be totaled and returns the sum of those values. This return value is then used in an XSL variable for output.

Answer: A

Question: 4

Analyze the following XML and DTD fragments that implement ID, IDREF and IDREFS used to link manager and subordinate relationships. Where is the error in the implementation of this logic?

employees.dtd:

```
<!ATTLIST employee empid ID #PEQUIPED>  
<!ATTLIST employee mgrid ID #IMPLIED>  
<!ATTLIST employee mgr IDREF #IMPLIED>  
<!ATTLIST employee subs IDPEFS #IMPLIED>
```

```

employees xml:
<employees>
<employee empid="e1" mgrid="m1" subs="e2"><name>Sob Smith</name></employee>
<employee empid="e2" mgrid="m2" mgr="m1" subs="e3 e4"><name>CarolJones </name>
</employee>
<employee empid="e3" mgr="m2"><name>Keith Martin</name></employee>
<employee empid="e4" mgr="m2"><name>Monica Williams</name></employee>
</employees>

```

- A - The subs IDREFS is formatted improperly for the second employee record.
- B - The mgrid must be defined as "#REQUIRED" in the DTD.
- C - The empid and mgrid attributes conflict as an element may only have a single ID attribute.
- D - First two records are invalid as each employee record may have either empid or mgrid attribute, but not both.

Answer: C

Question: 5

Consider the following XML document

```

<?xml version="1.0" encoding="UTF-8"?>
<Books>
<Book ID="001 ">
<Title>Finding New World</Title>
<Author>Jone Smith</Author>
</Book>
<Book ID="080">
<Title>How to Programming</Title>
<Author>Tom Alston</Author>
</Book>
</Books>

```

An XML developer wants to generate a HTML document that lists the ID, title and author of a book in a HTML table. Which of tl achieve the desired result?

- A -

```

<?xml version="1.0" encoding="ISO-8859-1"?>
<xsl:stylesheet version="1.0" xmlns:xsl="http://www.w3.org/1999/XSL/Transform">
<xsl:template match="Books">
<html>
<body>
<table width="100%" border="1">
<xsl:for-each select="/">
<tr>
<td><xsl:value-of select="@ID"/></td>
<td><xsl:value-of select="Title"/></td>
<td><xsl:value-of select="Author" /></td>
</tr>
</xsl:for-each>
</table>
</body>
</html>
</xsl: template>
</xsl:stylesheet>

```
- B -

```

<?xml version="1.0" encoding="ISO-8859-1"?>
<xsl:stylesheet version="1.0" xmlns:xsl="http://www.w3.org/1999/XSL/Transform">

```

Pass4SureOfficial.com Lifetime Membership Features;

- Pass4SureOfficial Lifetime Membership Package includes over **2500** Exams.
- **All** exams Questions and Answers are included in package.
- **All** Audio Guides are included **free** in package.
- **All** Study Guides are included **free** in package.
- **Lifetime** login access.
- Unlimited download, no account expiry, no hidden charges, just one time \$99 payment.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with explanations (If applicable).
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
